***Allowable Subject Matter***

1. **Claims 1-5** are allowed.

The following is an examiner's statement of reasons for allowance:

2. **Claims 1-5** are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art references which teaches the specific structure as recited in claim 1. In particular, the closest cited prior art 6,208,671 B1 to *Paulos et al.* in figure 12 does not clearly teach producing at least a first and second gain signal by multiplying. In addition, the input signals to the multiplexers are different. Hence figure 12 does not inherently or expressly teach applicant's recited invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

*The examiner thanks applicant for correcting the drawings by identifying figures 1-4 as prior art.*
